**RETAINING 1/3 INTEREST**

We are retaining 1/3 revenue-sharing interest in every bull in the catalog unless otherwise indicated. We are doing this so we may, at some point in time, collect and use these bulls in our herd. This will be done strictly at the buyer's convenience when you are not using the bull, and at our expense.

Welcome,

Once again, Brad & Paula, Helen and I want to welcome you to our annual sale. We certainly appreciate your confidence in our program and the many acquaintances and friendships we've made over the years, and look forward to more in the future.

The bulls will sell in catalog order and except for the first five or six bulls. We just lot tagged them in the order they came through the chute. I would encourage you to look through the whole group because not all the top bulls will be at the front of the sale.

A word about the cow weights: We weigh the cows as we preg test right after weaning. This year, on the second cow through the chute, we had a major breakdown with the scale and were not able to weigh the cows.

By the time the scale was repaired, several weeks had passed and the cows were gone to winter pasture. We just didn't want to gather them up and push them through again just to get weights, so we used last year's cow weights in the catalog.

We apologize for this, but felt the cow's condition was very similar to last year, and the weights would be similar, with exception of the younger cows that may have grown some. There are, of course, no weights on the 2-year-olds. Last year the 2-year-olds averaged 970 lbs. at weaning and I expect that would have been close this year.

Brad and Paula have wintered all the cows on winter range and cake, and, despite some snow, have fed no hay as of late January.

The bulls are again being fed at Darr. We made the sale selections the second week in January and think they look very good. They gained about 0.2 lbs/day more than last year's bulls on the same ration, probably in part due to the good fall weather. Mitch and his crew do a super job with them.

As always our effort is to provide our customers with bulls that will produce calves that are born easily, perform well and hang a desirable carcass. On the female side, easy fleshing, moderate framed, sound uddered, good dispositioned cows that are trouble free and enjoyable to be around.

If you have any questions or comments don't hesitate to give us a call.

Hope to see you March 1st.

— *Lamoine*

LANCE was one of the top-performing and top-selling bulls in Buffalo Creek's '06 sale. The bulls are thick and deep and the heifers are easy fleshing, moderate and productive. His mother is one of the top cows in the Buffalo Creek herd. Her sire, Dynamics, in the long-time Genex sire known for calving ease, good uddered, easy fleshing females. LANCE also has strong carcass numbers with a REA Ratio of 122. Lance sired the top-selling bull and had the top-selling sire group in the 2009 sale. Semen Available.

When I found LANCER in the pens at Buffalo Creek's 2006's sale he caught my eye right away. He is very correct, smooth and stylish – just what I was looking for to use clean up on heifers. Turned out I wasn't the only one that found him and he ended up one of the top selling bulls in the sale. He has done everything I expected him to do. He is super easy calving. Combining Becton Lancer and Dynamics also add carcass traits and low maintenance, easy fleshing females. LANCER also had an IMF Ratio of 129 & REA Ratio if 104. Semen Available.
