## Red Angus

Production Sale

Saturday,

March 12, 2011

12:00 p.m. CST

Aberdeen, SD

Aberdeen Livestock Sales Co.

Lot 5 – Sanderson Caesar 33X

Selling in conjunction with

## Murdoon Angus

40 Angus Bulls

# Welcome ...

Hello and Welcome,

Once again due to our flooding we will be selling our bulls at the Aberdeen Livestock (west barn) on March 12th. Our bulls will sell at 12:00 CST, and right after our bulls, Muldoon Angus will sell 40 head of Black Angus bulls.

The bulls are fed a growing ration of 9 lbs. of grain mixture of corn and protein pellet with grass hay. We bunk fed the bulls and this way we know each bull's disposition and temperate.

Being a small producer, we believe our cattle need to perform and work for us. We can only use and keep the best genetics so we can raise cattle that will work for your operation. This offering does that.

We offer free delivery of the bulls. We have kept bulls in the past but are not sure if we will be able to due that this year with all the water. We will try to help any way we can. If you have any questions call anytime or go to [sandersonredangus.com](http://sandersonredangus.com).

Hope to visit with you on March 12th.

Catalog designed by Cow Camp Promotions  
Tracey Koester • [www.cowcampromotions.com](http://www.cowcampromotions.com)

Printed by Quality Quick Print • Aberdeen, SD

*Lot 2's half sister*

# TERMS & CONDITIONS

## Terms:

This sale is conducted under the standard terms and conditions adopted by the Red Angus Association of America and the American Angus Association. Any changes in these terms will be announced on sale day.

## Announcements:

Announcements made sale day and from the auction block during the sale, take precedence over printed material in the catalog or other printed material associated with the sale.

## Registration:

All purebred entries sell with registration certificates. These will be transferred to the new owners by the seller.

## Phone Bids:

Bids will be handled in the most confidential manner. You may contact any of the owners or auctioneer. Cell phone #'s are 294-7881 or 294-7880.

## Liabilities:

Each animal will be at the buyer's risk as soon as sold. Neither the seller or livestock market or anyone connected with this sale can be responsible for accidents. Every effort will be made to provide for the safety and comfort of those attending the sale. You attend the sale at your own risk, however.

## Inspection & Lot Numbers:

Cattle may be inspected at the sale facility from March 11th to sale time. Tag numbers in the animal's ear will correspond with the catalog lot numbers.

## Breeding Guarantee:

We guarantee all bulls to be breeders although we recommend you have the bulls semen tested before turn out time. If after two tests a bull is found to be a non-breeder, we will refund purchase price. This guarantee is void if there is evidence of improper management in caring for the animal, or the bull's to breed is due to sickness or injury which was incurred after being sold. The bull shall be returned by the purchaser or other arrangements made with us.

# Rancher's Guide to EPDs

Courtesy of the Red Angus Assn. of America

**For more information on EPDs, visit [redangus.org](http://redangus.org).**

- CED..... Calving Ease Direct** – predicts the probability of calves being born unassisted out of 2-year-old heifers.
- BW..... Birth Weight** – predicts the difference, in pounds, for birth weight, and is also used in the calculation of Red Angus' Calving Ease Direct (CED) EPD.
- WW..... Weaning Weight** – predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age).
- YW..... Yearling Weight** – predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age).
- Milk .... Milk** – predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.
- TM..... Total Maternal** – predicts the rancher's actual observation of weaning weights of calves raised by an animal's daughters.  $TM\ EPD = Milk\ EPD + 1/2\ (WW\ EPD)$
- ME..... Maintenance Energy** – predicts a bull's daughters that will require less feed to maintain her body weight and condition; thus increasing profitability.
- HPG..... Heifer Pregnancy** – predicts the probability of heifers conceiving to calve at two years of age.
- CEM .... Calving Ease Maternal** – predicts the probability of a given animal's daughters calving unassisted at two years of age.
- STAY.... Stayability** – predicts the probability that a bull's daughters will remain in the herd until at least six years of age.
- MARB .. Marbling Score** – predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.
- YG ..... Yield Grade** – predicts differences in USDA Yield Grade score, and is expressed in USDA Yield Grade units.
- CW..... Carcass Weight** – predicts differences in hot carcass weight and is expressed in pounds. Because Red Angus' CW EPD is a multi-trait.
- REA..... Rib Eye Area** – predicts differences of carcass Rib Eye Area between the 12th and 13th rib.
- FAT ..... 12th Rib Fat Thickness** – predicts differences for carcass fat depth over the 12th rib, as expressed in inches.
