Private Treaty Bull Sale

STARTING:

SATURDAY,
FEBRUARY 26, 2011

Brown's Ranch, Bismarck, ND

2:00 p.m. CST

Selling 51

Hybrid and Angus Bulls

*“Customer Satisfaction is
Our Top Priority!”*

Brown's Ranch & Flat Lake Farms Private Treaty Bull Sale

Starting on:

Sat., February 26, 2011 • 2:00 p.m. CST
At Brown's Ranch, Bismarck, ND

FERTILITY GUARANTEE:

The bulls have not been semen tested because of their youth, but are guaranteed to pass a breeding evaluation. All bulls will pass this evaluation or we will not deliver them. If they fail to pass a breeding evaluation 100% of the purchase price will be refunded to the buyer. The passing of this breeding evaluation by our veterinarian will be our final fertility guarantee.

FEEDING & DELIVERY:

All bulls will be fed free of charge and delivered, at our convenience, after passing a breeding soundness exam. We try to have all of the bulls delivered prior to spring fieldwork.

INSURANCE & LIABILITY:

We encourage you to purchase mortality insurance on the bulls. Understand that although the care of the bulls is of the utmost importance to us, things do happen. We cannot be responsible for injuries or death of any bull while in our care.

HOMOZYGOUS BLACK:

All of the bulls will be tested for homozygous black and that information will be available prior to the sale. We anticipate that the majority of the bulls will be homozygous black.

SCROTAL MEASUREMENTS & ADG:

Scrotal measurements and average daily gain will also be available prior to the sale.

SEMEN INTEREST:

We reserve the right to collect semen on any of the bulls sold in this sale at our expense and the buyer's convenience.

All of the bulls selling in this sale are NOT registered.

Cattlemen,

This past year has brought many changes to our operations. As many of you are aware, Paul and I switched to May calving in 2010. We did this for many reasons; lower wintering costs on the cows, less labor and a more enjoyable lifestyle to name a few. It was even better than we thought it would be.

Calving on pasture was an absolute dream. However, due to this we knew we would make the move to selling coming 2-year-old bulls. Thus, we will not have any of our bulls for sale this year. Due to this, we do not have the numbers necessary to hold a sale in town. So, we have decided to hold a private treaty sale at our ranch.

All of the bulls selling will be from Chad and Wayne Solberg's herd. They are the same quality as in past years and are being grown out on a high-roughage ration at our ranch near Bismarck. They represent the top cut from over 150 bull calves born in 2010 on their ranch.

The sires used are some of the top in the industry, including an exciting set of calves from SAV Dimension, the \$18,000 seller in the 2008 SAV sale. They are deep ribbed, easy fleshing and full of meat. The maternal strength of the dams of these bulls is unmatched.

All of the bulls will be tested for homozygous black and those results will be available prior to the sale. We expect the vast majority to test homozygous.

Scrotal measurements and average daily gains will be available also prior to the sale, and Private Treaty asking prices will be available two weeks prior to the sale.

Sale Procedure: The bulls are available for your inspection at any time (please call ahead to make sure we are home). However, no bulls will be sold prior to Saturday, February 26, 2 p.m. CST.

At that time, they are available to be purchased at a preset asking price. If more than one person wishes to purchase a particular bull then that bull will sell to the highest offer. If you cannot be in attendance at that time you may leave a bid on a bull(s) ahead of time. Any bulls not sold that day will be available at the asking price. The asking prices will start at \$2,000. We assure you that the bulls will be very affordable. In case of inclement weather the bulls will be available for sale at the asking price anytime after 2 p.m. CST on February 26.

If you have any questions feel free to call Chad, Paul or myself at anytime.

We sincerely thank you for your interest in our programs and look forward to visiting with you in the future.

Sincerely,

BULLS

DAM 726 DAM'S SIRE **KCF BENNETT TOTAL** DAM'S AGE 3

It is hard to fault this bull. He has volume, muscle and meat. His dam is a beautiful, young cow who had one of the top bulls in the 2010 sale selling to longtime customer Jay Olson of Grenora.
