Majestic Meadows' Pursuit of Perfection Continues ... Your Cool Bull Source!

Majestic Lightning 717 – He is still raising the bar. And he's still the first to get all his cows covered. Proudly owned with von Forell Ranch, Wheatland, Wyo.

Majestic Gran Torino Z40 – Here is a bull you need to study as a potential outcross. We've got a lot of it but not everyone does. No Canadian influence. Giant footed super sound this Dixie National grand champion is proudly owned with Ty-Bee Farms Newburn Tenn.

3 Aces Sideways – He is still our go-to heifer bull on Lightning daughters and they make gorgeous cows. In Majestic Zulu Warrior B33 he may have sired that great son. Sideways is proudly owned with 3 Aces Cattle Co. Clinton, Tenn.; TC Reds, Ringle, Wisc.; and von Forell Ranch, Wheatland, Wyo.

Majestic Lion Heart A25 – You really have to see him to believe him. It's shocking how good a bull can be. If he breeds as true as his sire, this bull will put his stamp on the beef industry for years to come. Proudly owned with J6 Inc., Gibbon, Neb.; Crossroads Cattle Co., Crossroads, Pa.; Heavican Genetics, Rogers, Neb.; JK Red Angus Aberdeen, N.C.; Presnell Red Angus, Shelby, N.C.; and von Forell Ranch, Wheatland, Wyo.

Welcome!

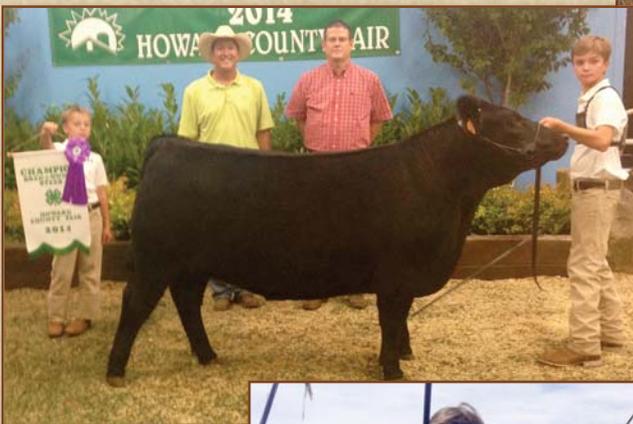

As we began making sale preparations, I was struck by how quickly time goes by.

I hate to sell 'em. These heifer calves are our future and we believe we are headed in the right direction. We set out in the Reds to make bulls that could truly compete. We believe we've come a long way with Lightning and Lion Heart, but we still have progress to make in our "Pursuit of Perfection." With beef prices where they are – and where I believe they will stay – now more than ever we need bulls weaning in that 800 to 900-lb. range and yearlings in that 1,400 to 1,600-lb. range. How else will we have 1,250 to 1,350-lb. terminal-weight steers in 12 to 14 months? Feed intake is obviously a key component in profit but it's nothing compared to the cost of keeping them on feed an extra 30 to 60 days.

All of this being said, the struggle is to keep your cowherd pretty and feminine, and your bulls stout and masculine yet chisel fronted. We've harped on feet and legs until every animal in this sale has a great set of wheels. We also believe you'll love their udders. But as more and more of our top-notch heifers and bulls are produced via IVF, we need to stay focused on femininity, fertility and milking ability. There will come a day all too soon when a handful of bulls will sire all the beef calves that year, much like dairy or pork or poultry. But in the mean time, it is our duty to make sure the traits are there so that Red Angus may be part of those composites.

This is the deepest set of heifers we've raised. Top to bottom they are really impressive. I can't pick out a favorite but I can sure talk ya through them. Jason, Blake, Chris, AJ, WoJo, Blake, Myron and even Hootie can as well. If you need any cell phone pictures of feet, front legs or hocks, let us know. If you need help with travel arrangements anytime between now and sale time, please let us know. We'll pick you up at BWI. It's almost worth coming just for the crab cakes!

This January heifer should be on everyone's list – she has a super-gentle disposition. Out of a black-hided full sister to Majestic Blockana 728, the unforgettable 2009 Louisville champ. Sired by 3 Aces Sideways, who's progeny have been doing a ton of winning, but make even better brood cows. She's dark footed with a big heel with lots a flex to the joints and good rib shape. What's not to like?

Cut from similar cloth, this heifer may be the sleeper. We snuck her mother out of the NILE as a bred. She went on to Reno and at least won her division (maybe reserve) and did very well in Denver. She has the prettiest udder of any Angus cow I've ever seen, and an excellent set of hard feet. A half sister by McQueen was a sale highlight and sold to Camiel Blomme. This heifer is deep, dark red, dark footed and good legged. She's really green but coming on strong.

Striking! If you've ever dreamed of owning a champion female, this might be the one. Her mother is the 2009 Louisville champion. We called her Buttercup, and the day she was born we knew she was special. She still dons the cover of our website. She carries herself like no other female in our herd. Her head and neck come out of her shoulder so high it's spectacular to see her move. She's a gorgeous uddered female with a giant dark, round foot, plus I can ride her. This heifer calf reminds me of her. This is the one that has potential to be great. She hurt herself – or a black one hurt her – shortly after her arrival from our cooperators. For all of these reasons we are selling one-half embryo interest without possession. If you would like to obtain possession and show rights please, give me a call. We will not show her against you anywhere in junior shows.

The rubber is starting to hit the road here. This is a full sister to the 2012 Denver Grand Champion female. Dark footed, big middled, big topped and loads of potential. Sired by the Triple Crown winner, Majestic Lightning, out of a Denver Grand Champion, LuLu. The day before the show everyone was a buzz in Denver about the big shaggy bred in our stall that recently won Keystone. Everyone asked if she was for sale? She was and he was only asking five for half, I've never heard more Monday-morning quarterbacking from a group of cowboys in all my life. If you don't want to be a Monday-morning quarterback, get in here.

All spring the cooperators kept saying, "There's this one." Well, they weren't kidding when she got here, we looked through them and there was this one. I'm not going to describe her as sometimes a picture says a thousand words and the video tells the story. And this is one that can begin a new chapter in any beef cow program as she is "that one." We will be retaining one-half embryo interest.

The last one is "the one," unless you like this one better. This one was raised here and has been a favorite since birth. She was born unassisted on a cold day out of a Lightning daughter I acquired in a flush of Feddes Blockana 880 – a gorgeous cow that has an MPPA score of 105.5. I flushed her to Lightning, got the look, the bone and the structure. Hit her to Mulberry and "Voila!" Dark footed, huge topped, longest spine in the sale. She still catches her front track for as long as she is. Loads of rib shape. She also happens to be Stewart's choice for bred-and-owned and mine for a cow. As we hold nothing back, here is an opportunity to get in on a Blockana that'll knock your socks off! Selling one-half embryo interest without possession. She will not be shown in a Red Angus owned junior show.

Out of a spectacular 3-year-old, dark-red Majestic Lightning daughter, with a picture-perfect udder. This calf continues to impress and leads off the March calves. She's dark footed, super sound, long and deep – it's hard to find a hole in her with lots off grow left. She's one to jump on. The Visionary thing is probably gonna only get better. Visionary is a VGW Game Plan 508 son and my favorite to date.

Majestic Reba's Robin B21's maternal grandmother, KRN Reba's Robin, has perhaps had more influence than any other cow in the breed. Her two most famous sons, Major League and Grand Canyon, account for 8760 head. Her other sons and grandsons ... well you see where that's heading. Her dam is by Mulberry with a picture-perfect udder, and she's that really cute one in the ad a couple years ago peering out of the calf shed. But don't let that fool you. This calf, sired by Majestic Lightning, was the ultimate goal, and she's gonna leave a mark. Selling one-half embryo interest. Possession is negotiable.

Majestic Blockana B26 this stout heifer calf could fit in the show ring, the feed lot, or the cow herd. Super stout, good dark food, gonna make an awesome cow. Her mother we purchased from the Feddes program as pick of the open heifers. She's sired by 909N and Norseman king on the bottom. Big time weaning weight, big time set of numbers and Lightning has put a set of wheels under her classed her up. I like to refer to this one as, "hiding the veggies in the Mac and cheese." It's all good in this one.

Chickens today grow faster, yield more meat on one-third the feed. I borrowed this from Lee Leachman to illustrate the genetic progress we strive to make in our Pursuit of Perfection.

All of these heifers are eligible for the NAJRAE Futurity. Last year, one exhibitor received \$2,500, another \$1,500 and each one of the 175 exhibitors received \$100.

This could be the Firefly we've been waiting on. We think she can rock the show ring and crush the scales, plus she has a super-sweet disposition. As great a cow as she's gonna be, I'd hate it if a kid didn't get to show this one. Amazing dark foot, good legged, long neck coming out of the top of the shoulder, deep flanked, huge hiped. The great thing about this one is she'll make you piles of money on heifer calves or bull calves. Her brother, Majestic Superfly A119, is working in the Heavican Genetics program in Rogers, Neb., and we are expecting great things from him. Other than Lightning's dam, Firefly has been our most profitable cow.

 SODAK WINDSONG 7030 | SODAK OSCAR 4386
 SODAK RAIN DANCER 2068

Talk about class! This little Windsong baby has it. It's like she's chiseled from stone. What else can be said of Windsong that hasn't already been said? She passed on, but the prolific donor that she was has left plenty of eggs behind. We are going to keep her on the recip cow for a while as she's almost a May baby. This one's got training wheels on her. Help yourself and make her a champ. Selling half interest and possession, retaining one-half embryo interest.

We think this May heifer calf has the potential to really come on. Out of Mahogany 56N and sired by Sideways, she has the beauty and the beast behind her. Sideways is the beauty, 56N the beast. She's the biggest cow we've got – huge footed, dark red and deep. Sideways has stretched her out, prettied her up and this one's gonna make a whale of a cow. And after you get done showing her your have a whale of a tale to tell. Same deal – keeping her on the recip cow until later so as to give this baby a chance to be a calf.

Again, this heifer goes back to Reba's Robin. This full sister to Lot 2 is just a June baby. We took this field shot so hopefully it gives you a little bit of the idea of how much potential we think this one has. She has lots of shape and a good dark foot with plenty of heel. Clip that front end out and I think this one will be very pretty. Retaining a one-half embryo interest.

Impressive show career – Grand Champion Bull KILE International Livestock Expo, Grand Champion Bull North American International Livestock Expo., Res. Winter Calf Champion National Western Stock Show and Winter Calf Champion Fort Worth Stock Show and National Red Angus Show. None of this is nearly as impressive as he is to see in person. His length of body, muscle shape, balance and agility make him truly one of a kind. His 1500-lb. yearling weight on a moderate frame and light condition is even more impressive. As we strive to keep pace with the competition and their numerous bulls in the 1500-1600-lb. range, we believe Lion Heart does it as well as any beef bull out there. High-quality semen collected at North American Breeders is available the old fashioned way – one unit at a time and priced at \$150/straw. Volume discounts available 100 units or more. Commercial discounts available with pre-approval.

We've made a habit of identifying cows or cow families targeting them to buy or flush, then use Lightning to create exceptional progeny. The Lightning daughter that is the dam of Zulu Warrior is no exception. He is the culmination of the mating of Forster Copprqueen 7168, the dam of UBAR Grand Prix, to Majestic Lightning 717. In turn, mated to Sideways, and here is her natural calf, Zulu Warrior. He is stout enough yet rangy enough to be fitting of the title Zulu warrior. In fact he's the best Sideways son we have bred and heir apparent to his sire's great track record of producing gorgeous females. We believe females should be feminine and bulls should be masculine. There's something innate in these two highly heritable traits that drives fertility. Mind you, Majestic Zulu Warrior B33 is only an April baby and merely four months old or so at the time this picture was taken. If you hadn't guessed, we think he's special!
