Join us for our Annual Production Sale on

SATURDAY
MARCH 28, 2015

1 p.m. MDT • At the Ranch • Briggsdale, Colorado

73 RED ANGUS BULLS • 40 COMMERCIAL HEIFERS

DVAuction Broadcasting
Real-time Auctions

Welcome ...

to our annual production sale. We have been breeding Red Angus seedstock for over 30 years. Our goal has always been low birth weight, easy-calving, highly maternal cows. We manage our cattle as a herd in a range environment with a “no excuses” rule.

Jean, Larry, Alisa, Sallie and Kevin

See videos of bulls at **croissantredangus.com**

We would like to welcome you to the Croissant Red Angus annual production sale. This year we have an excellent set of bulls in the sale. The genetics that are presented here are a culmination of over 30 years of balanced-trait selection with profitability in mind.

Last year we were looking at record prices, who knew that it was going to become a phenomenal year. Once again we are offering cattle that will be profitable throughout the production chain, on the ranch and beyond.

This year we will broadcast on DV Auctions, so take time to look at the procedures for viewing on page 3. Another addition to the EPD profiles this year is two new Red Angus indices, HerdBuilder and GridMaster. Take a look at page 24 for an explanation, or contact us and we will be happy to talk with you about them.

You may notice some bulls in the sale this year that have a different prefix. We are excited to work with the Sorensen family from Sorensen Land & Cattle, Altamont, Utah, this year. They understand the Croissant Red Angus philosophy and we look forward to working with them for years to come. These bulls will be represented honestly and come with the same Croissant Red Angus guarantee.

As always, we are very honored to work with the great cattlemen and women of our industry. We take our part in providing genetics that will work throughout the beef supply chain very seriously. If you have questions about anything we are always here to help.

Please enjoy the coffee and donuts in the morning. After lunch we will begin the sale at 1 p.m. MDT.

Thank you for the trust and confidence in our program. We look forward to being your partner in the beef industry.

Sincerely,

The Croissant Red Angus Family

Larry, Jean, Kevin and Sallie

SALE TERMS:

- Animals are unconditionally guaranteed to be sound and to be breeders for the first breeding season. Bulls are guaranteed to have libido and heifers are guaranteed to cycle. We do not guarantee against injury or illness.
- Each animal will be at the buyer's risk as soon as sold, but will be cared for by the seller for a reasonable time after the sale. Animals need to be picked up by **April 15th**.
- The bulls and heifers will have passed a Breeding Soundness exam before sale day.
- Free delivery of bulls for the first 250 miles. After 250 miles delivery will be charged at cost. Deliveries will be scheduled as soon after the sale as possible. We do not offer delivery on heifers but will work with the buyer to arrange delivery if needed.
- **A \$50 credit will be given to purchasers who pick up their bulls by April 15th.**
- **A \$50 credit will be given to purchasers of multiple bulls.**
- We will be retaining a 1/3 interest in bulls we designate or wish to collect and use in our herd. They will be noted in this catalog. Semen collection is at buyer's convenience. **Buyer has full possession & full salvage value.**
- Registration papers will be transferred to the buyer which provides eligibility for the **RAAA FCCP**.
- Announcements from sale block take precedence over printed catalog.

SALE PROCEDURES:

- Animals are **always** available for inspection at the ranch.
- Bulls & heifers will be penned in small groups on sale day.
- Each animal will sell in catalog order in a video setting, rather than through a sale ring.
- Bids will be accepted:
 - Live at the auction.
 - On one of the sale day phones.
 - On the Internet at **DVAuction.com** with no buyer's fee.
 - Call Larry or Kevin for help and to leave sight unseen bids.
 - All bids will be handled in strict confidence and be treated as if you were present.
- **Absentee bidders please register before sale day!**
- **Internet viewing and bidding at DVAuction.com**

SALE DAY PHONE NUMBERS:

(970) 590-4981 • (970) 222-6094

(970) 301-3998 • (970) 371-0214

(804) 647-0127 • (816) 661-2289 • (435) 823-0829

Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DV Auction. To watch or bid online, simply complete the following steps:

- 1) Visit the DVAuction web site at www.dvauction.com
- 2) Click on the "Register" tab
- 3) Enter a user name, password and your contact information.
- 4) Click on "Apply for Bidding."
 - Select the sale from the list of other auctions and click "Apply".
 - Complete the process by filling out the Banking & Lending information requested.
 - Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.
 - If you would prefer to be approved using your credit card, call (402) 316-5460.
 - Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 316-5460 or (402) 474-5557 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DV Auction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DV Auction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

RED ANGUS YEARLING BULLS

CROISSANT RED ANGUS CATTLE ...

- Excel in calving ease, carcass and maternal traits
- Are developed and conditioned to survive the breeding season
- Large contemporary groups
- Cow herd is selected and managed to produce under range conditions

CALVING EASE: It'll be nearly halfway through the sale before another calf this young shows up on the sale order – but 166B is all bull despite his youth. His 14.5 REA scan was the third largest in the entire offering – even though he was too young for RAAA to ratio. With 10 traits in the top 15% – including a best 3% Calving Ease to 109 YW EPD spread - 166B has earned the pole position in our 2015 bull offering. **Retaining a 1/3 semen interest.**

4%	49%	22%	48%	8%	11%	96%	83%	33%	82%	1%	90%	35%	15%	21%

CALVING EASE: 939B is a bull that should increase pay weight whether you sell calves, yearlings or own them all the way to the carcass – he ranks in the Top 8% for WW, 11% for YW and 15% for carcass weight – and he'll add more muscle in the process with his top 21% REA EPD ratio. Perhaps more importantly, he'll add those pounds & red meat while remaining below average birth weight and moderate framed. **Retaining a 1/3 semen interest.**

A GENESSEEK PRODUCT

Crossbred Red Angus

Bull Selection – Simplified.

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

“What impact will each potential sire have on my operation's profitability?”

HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

GRIDMASTER

Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.

While the process of calculating an index is very complex, the resulting selection tool is very simple to implement.

HerdBuilder and GridMaster are expressed as differences in profitability per exposure.

HerdBuilder Example:

30 cows x 5 years breeding = 150 exposures

Bull A has a HerdBuilder Index of 175: $175 \times 150 = \$26,250$

Bull B has a HerdBuilder Index of 100: $100 \times 150 = \$15,000$

**\$11,250 Difference
in Profitability**

Ranch Tested. Rancher Trusted.

Red Angus

(940) 387-3502 | RedAngus.org

THE POWER OF 80K

ACCURACY

EPDs predict an animal's true genetic merit which can be passed on to offspring. As the amount of data included in an animal's EPD calculation increases, ranchers can have more confidence that the

EPD correctly identifies the animal's true genetic merit. This is communicated to stakeholders in the form of "Accuracy", which is printed in conjunction with each EPD and ranges from 0 to 99.

INCREASED DATA = INCREASED ACCURACY = INCREASED RELIABILITY

The power of 80K is the ability to collect additional genetic prediction data before an animal is selected to enter or exit the herd. Thus allowing producers to achieve their genetic goals at a faster rate, as the genetic predictions used in selection decisions are of higher accuracy.

Pro♀-Cow

40 PRO-COW OPEN HEIFERS

These are an excellent set of replacement heifers with built in heterosis and ready to go to work for you. They come from long-time Croissant customers whose bull selection has focused on cowherd building traits while maintaining pressure on carcass merit. We have had the pleasure to feed calves from these operations over the years and **THEY ARE TOP QUALITY.**

We have sorted these heifers into 3 uniform groups to maximize your opportunity for success under your management and environment.

Lot 200 - 12 head of power Red Angus heifers.

Lot 201 - 15 head of moderate maternal Red Angus heifers.

Lot 202 - 13 head of moderate maternal heifers sired by Red Sim-Angus bulls out of Red Angus cows.

These are outstanding heifers; they will be ready to breed and go to work for you.

There will be a supplemental sheet sale day with average weights of each group.

A grandson of Nebula P707 on both sides. Our ranch name for him is "NEXUS." His calves exhibit great muscle expression, strong tops and deep chests. Daughters are moderate with good structure, level udders with small teats and are good mothers. An all-around herd sire for our program!

DEVELOPMENT PROGRAM: The bulls were developed on the ranch. After weaning the bulls are grazed out on pasture for a month and then fed a high quality roughage ration with a vitamin-mineral supplement to gain 3.25 lb/day on average. The bulls are kept in a large dry pen, which gives plenty of exercise. We do not target 1,300 or 1,400 lb. yearling weights. The development program is designed for the bulls to make their own way on the range and hold up to the rigors of their first breeding season.

NO BULLS HAVE BEEN PRE-SOLD OR HELD BACK.

If you are in the market for Red Angus Bulls, we provide an exceptional value for a high quality product.

You are welcome to come and evaluate our cattle prior to the sale. This allows more time for us to assist you with your selections. If you can't make the sale, we can be reached at the numbers below and will be live on the internet at DVAuction.com. All bulls sold on the phone or internet come with a sight unseen guarantee.

YOU ARE WELCOME ANYTIME!

Your trust & confidence in our cattle, our program, and us is appreciated and taken with the utmost sincerity. *Larry & Jean – Kevin & Sallie*

RANCH DIRECTIONS: We are located halfway between Sterling & Ft. Collins on Highway 14, then 5 miles north on Weld County Road 83. We have a sign pointing north at road 83's intersection with Highway 14.

INTERNET VIEWING & BIDDING at DVAuction.com

OUR GOAL: Produce functional cattle for our short grass semi-arid environment and provide honest value and service to our customers.

OUR PROGRAM: Our program is founded on balanced trait selection using proven sires. We put the emphasis on Carcass, Maintenance, and Reproductive traits including low birth weight and do not chase extreme growth. These traits add value through carcass quality, lower maintenance costs, increased longevity of the females, and reduced labor inputs with the added benefit of the accompanying “convenience traits”. The growth traits do require extra inputs. We focus on fertile, easy handling females with mothering ability.

The cattle presented here are out of cows that are bred to work within our limited resources, producing calves that excel at weaning, perform in the feedyard and add value on the rail. We hold our females to a “no excuses” production criteria. If they can’t raise a calf every year in our environment they are culled from the herd.

PROGENY EVALUATION: The Red Angus breed was founded on progeny testing, and we believe in using all the tools available to increase selection accuracy. Calves from our cow herd stay on our ranch and are evaluated to end product, be it seedstock or feeder cattle.

Keeping contemporary groups of significant size is one of the most important aspects of performance testing. We manage our cows to keep large contemporary groups. We use this large group data to select our replacements and bull candidates. After weaning, the groups are split into seedstock and feeder groups. The seedstock groups are evaluated with yearling weights, growth measurements, and ultrasound. The feeders all get yearling weights taken and the real carcass data is identified back to both the sire and dam. All the bulls in the sale have had the RA80K, which produces the genomically enhanced EPDs. This improves the genetic predictability of the bulls and cow herd.

Check our website for the videos:
CroissantRedAngus.com

HEALTH: The cow herd is vaccinated at Prebreeding time with PregGuard Gold FP 10. Precalving vaccinations are Vision 7, Clostridium Type A, Scour Bos 9, plus parasite control.

The heifers have had their branding, preconditioning, and weaning shots of 5 way BRD, Pasteurella, 7 -way Somnus, and a parasite control. They have had their Bangs vaccination, StayBred VL5, plus a Prebreeding exam & PregGuard Gold 10 FP. They are ready to breed!

Bulls are given the same calthood vaccinations as the heifers, and recently a StayBred VL5. Dr. Shoemaker will Fertility Test all bulls and the results will be provided for each bull sold.

THEY ARE GUARANTEED BREEDERS & READY TO WORK!

CATALOG INFORMATION: All EPDs, including carcass, have been updated to reflect the latest performance data including Ultrasound and **80K DNA GENOMIC PANELS**. Percentile rankings are listed below the EPD table. The measurement data with their in-herd performance ratios are listed in a table just to the right of the pedigree. Scrotal measurements will be on a supplement sheet available sale day and posted on our website as soon as fertility testing is completed.

We present all the data on all the bulls to make your selection easier and more complete!

Sale day announcements will take precedence over the catalog information.

Extended pedigrees can be seen on the Red Angus website (RedAngus.org). Enter the Reg. # in the table accessed by the "Animal Search" button.

SELECTION: We do supply all the raw measurement data and in-herd performance ratios; but when making your selections, more reliance should be put on the EPDs. The EPDs have already factored in each animal's performance ratios, including the carcass ultrasound data, and 80K panels. To aid in your interpretation and application of the RAAA EPDs, the Red Angus Association has published "Ranchers Guide to EPDs." You can get a brochure by calling the Association (940-387-3502). This is an excellent source of information and is worth requesting a copy. Of course we will help you interpret any of the information in this catalog.

Red Angus Feeder Calf Certification Program

For nearly two decades the FCCP has been delivering results for bull customers using ONLY Red Angus

Genetic, Source & Age

Released in 2012, Allied Access provides an added-value option for Red Angus customers using multiple breeds in a rotation, hybrids and/or composite bulls to capture heterosis in their crossbreeding programs.

Source & Age

RedAngus.org • (940) 387-3502

Choice⁺

Tyson Fresh Meats' Red Angus grid focuses on the strengths of Red Angus cattle verified through the FCCP "Yellow Tag" program.

"The Choice+ Grid has really worked for our cattle. 168 head of our Red Angus FCCP-tagged steers have averaged \$60.33/head in premiums."

ACKNOWLEDGEMENTS

Tyler Knode – Our auctioneer.

Dr. Wade Shoemaker – Semen testing bulls, health papers and general herd health program.

Ideal Video Productions – For excellent videos, web site postings and sale day broadcasting.

Family & friends — Sale day brings neighbors & friends, kids & grand kids, mom, brothers & sisters, and nephews & nieces.

Harold Bertz, RAAA Director of Business Development – He will be here sale day to assist our customers and answer any and all questions regarding the Red Angus Association's commitment to the commercial beef industry.

Greg Comstock – He has come on as a program marketing consultant. We will be working with Greg on future projects to help enhance value in your seedstock investment.

Tracey Koester of Cow Camp Promotions – She does an outstanding job on the catalog and our advertising program throughout the year.

Austin Fischer – He came to work for us this past fall. He comes to us from Chico State in California and has been a valuable asset to us. Take time to meet Austin.

Last, but not least, our Great Loyal Customers!
