

KRAVIG RED ANGUS

Annual Production Sale

**TUESDAY,
APRIL 14, 2015**

AT THE RANCH • KARVAL, CO

"Cattle Working For You!"

www.kravigredangus.com

Welcome

KRAVIG RED ANGUS

Aaron, Danielle and Kennadee Kravig

We would like to welcome you to our 5th annual production sale. We greatly appreciate your interest in our program and the continued support of our past customers.

Kravig Red Angus is a family operation that has been raising Red Angus cattle in Eastern Colorado for over 30 years. The day-to-day operations of our ranch are handled by myself, my wife, Danielle, my father, Dennis, and my mother, Lisa. With several of us holding jobs off of the ranch it makes our calving and breeding season very busy. For that reason it is very important to us to place a lot of emphasis on calving ease and good dispositions in order for everything to run smoothly.

The heart of our operation revolves around the mother cow. She must possess a sound udder, a quiet disposition, be moderate framed, easy fleshing and have excellent structure with an emphasis on her feet and legs. Our cows are not pampered and must be able to “work” for a living with only minimal supplemental feeding. These traits are passed on from generation to generation creating an ideal cow who will stay on the land and generate a profit year after year.

Welcome

Cattlemen and Women,

The cattle markets in 2014 were one fast and wild ride and I am sure it will be one that we will not soon forget! Cattlemen and women all over our great nation reaped the benefits of record high markets and are finally able to breathe a little easier. Now, as good as 2014 was, I do not think we will see another year like that again, however I do believe we are going to see a consistent trend that will ensure profitable cattle for several years. Here at the ranch we saw another good year of moisture allowing us to grow a bountiful amount of grass and even raise a little feed. I still won't say we are out of the drought but at least the light at the end of the tunnel is getting brighter (or in this case greener!).

This year the bulls were weaned mid-October were started on feed shortly after. The bulls were fed a seed stock pellet and over a period of 3 weeks were worked up to roughly 9 lbs per head per day to achieve a gain of around 2.75/lbs day. Along with free choice hay, the bulls have access to 120 acres of grass allowing them to get out and stretch their legs daily. We believe that by developing our bulls in this manner they will remain sound, they will not be over conditioned, and they will be ready to go out and start working for you.

All of the cattle in the sale offering have been culled for dispositions, feet, legs, udder structures, and are backed by years of proven performance. Just as last year all sale animals will be videotaped and will be able to be viewed on our website (kravigredangus.com) prior to the sale.

Whether you need a heifer bull, a new herd sire, or you are looking for some low maintenance well balanced females, I believe you will find exactly what you are looking for in this year's sale offering. I look forward to seeing you all on April 14th.

God Bless,

Aaron Kravig

Sale Information

KRAVIG RED ANGUS

Annual Production Sale

Tuesday, April 14, 2015

Viewing at 11 a.m. • Bidding closes at 1 p.m.

At the Ranch • Karval, CO

Directions: 1 mile west, 1 mile South of Karval, CO

Selling:

43 Red Angus Yearling Bulls

6 Open Red Angus Heifers – You Pick 'Ems

SALE DAY PHONES:

Phone bids will be taken on the day of the sale.

Sale Day Phones719-740-8032 • 719-243-9280

TERMS AND CONDITIONS

All cattle start out at the listed base price. If two parties are interested in the same lot you are allowed to bid in the form of a silent auction. The silent auction closes at 1 pm. The highest bidder on the board gets the lot.

CATTLE VIEWING

Viewing starts at 11 a.m. Bidding closes at 1 p.m. The private treaty sale will begin immediately following the close of the silent auction.

FEEDING

All cattle will be kept free of charge until May 9th. All cattle kept past May 9th will have a \$75 feed and delivery charge.

DELIVERY

Free delivery to central points within 120 miles. Delivery beyond 120 miles can be arranged for a fee.

BREEDING GUARANTEE

All bulls will pass a breeding soundness exam prior to leaving our ranch.

CATTLE CARE

When the cattle are sold, the buyer may leave the cattle at the ranch until delivery at the buyer's risk. We will take care of the cattle to the best of our ability, but the cattle are the buyer's responsibility.

LUNCH:

A complimentary lunch will be served from 11 a.m. to 1 p.m. on sale day.

VIEW CATALOG & VIDEO ONLINE:

www.kravigredangus.com

CATALOG DESIGN: Cow Camp Promotions

Sale Information

RED ANGUS CATEGORIES

1A –

Purebred 100% Red Angus with no disqualifying characteristics.

1B –

87.5% to and including less than 100% Red Angus with no qualifying characteristics.

Category II –

Animals with equal to or greater than 87% up to including 100% Red Angus blood content having one or more disqualifying features. In this offering it is white front navels, black hides, or scurs.

Category III –

Animals that are 50-87% Red Angus. In this offering all animals being sold are purebred Red Angus cattle, however some sale lots only have a registered pedigree on the top side. (Dams to these animals in our sale are guaranteed out of purebred Red Angus cows, however they lack registration papers with the Red Angus Association.)

Red Angus Feeder Calf Certification Program

For nearly two decades the FCCP has been delivering results for bull customers using ONLY Red Angus

Genetic, Source & Age

Released in 2012, Allied Access provides an added-value option for Red Angus customers using multiple breeds in a rotation, hybrids and/or composite bulls to capture heterosis in their crossbreeding programs.

This bull is impressive from one end to the other! He is a full brother to our high selling bull from last year (lot 1). Dennis says this bull is better than his brother, and I would have to agree. His damn is an 8-year-old cow that came from Larson Red Angus and was sired by 5L Noresman King. His sire is BAB Conquest 1101 who is arguably the easiest keeping, most powerful bull we own. Lot 3 is a bull who will add growth and power to your steer calves, as well as put fancy, moderate framed, easy fleshing females on the ground.

This bull started out slow, but is really coming on strong.

Kennadee

Open Heifers

All of these heifers were weaned in October and turned out on wheat pasture. They were gathered in mid-March and fed a seedstock pellet for the last 30 days. They have all been cycling and are ready to breed to the bull of your choice.

It's hard to part with any of these heifers, but my loss will defiantly be your gain! All of these heifers are deep bodied, feminine heifers out of top-producing cows with perfect udders and dispositions. If you want to get your start in the registered business this a great place start!

Bull Fitters

Red Angus Pro-Cow

Pro-Cow is a tool used by the Red Angus Association of America to identify replacement-quality females. Only females enrolled in the FCCP will be eligible to be labeled as Pro-Cows, therefore ensuring at least 50% Red Angus bloodlines.

How to label females as Pro-Cow:

- Enroll calf crop in the Feeder Calf Certification Program (FCCP).
- Purchase 99-cent Pro-Cow tags or have the Pro-Cow logo imprinted on your FCCP tag.

Sale Information

Choice⁺

Tyson Fresh Meats' Red Angus grid focuses on the strengths of Red Angus cattle verified through the FCCP "Yellow Tag" program.

"The Choice+ Grid has really worked for our cattle. 168 head of our Red Angus FCCP-tagged steers have averaged \$60.33/head in premiums."

*Clay Anderson
Anderson Land & Cattle Co.,
Oberlin, Kansas*

Red Angus Association of America
RedAngus.org | 940.387.3502

Bull Selection – Simplified.

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

“What impact will each potential sire have on my operation's profitability?”

While the process of calculating an index is very complex, the resulting selection tool is very simple to implement.

HerdBuilder and GridMaster are expressed as differences in profitability per exposure.

HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

GRIDMASTER

Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.
