North Dakota Red Angus Association Red Select Sale

Welcome,

Welcome to the 2015 N.D. Red Angus Select Sale. We have another outstanding set of females to offer again this year. Jeff Thomas selected all of the consignments and we have a very high-quality set of bred and open heifers, as well as some very exciting embryo and semen packages. This is a great opportunity to purchase some of the northern region's top genetics to advance anyone's program.

Red Angus is showing unprecedented growth as a breed and in popularity among commercial producers, feeders and packers alike. Red Angus heifers are still bringing a premium over most other heifers being sold this fall.

Again this year we are happy to share the sale day with the N.D. Simmental Association's State Sale that will follow the Red Select Sale. While each breed is maintaining its own identity, we think it reflects the cooperative effort of the two breeds' national collaboration. We also think this will be a tremendous opportunity for buyers who utilize both breeds.

I would like to thank Jeff Thomas for his tremendous job of cattle selection and for managing this year's sale. I would also like to thank the entire board for all of their work through out the year. Thanks also to Tracey Koester of Cow Camp Promotions for a great job of advertising and catalog design.

We are pleased to welcome Gary Fike, RAAA director of commercial marketing, to our annual meeting and banquet. Gary will discuss the marketing programs, the new Strategic Plan, producer meetings and the FCCP. He will also be available to answer members' questions.

At catalog print deadline, there were still several open heifers with pending registrations. As the RAAA transitions to the new REDSPro database, there has been a backlog of workgroups. The RAAA staff continues to work overtime to get new cattle registered, and these heifers' registration numbers should be available by sale day. For catalog purposes, we used parental average EPDs as noted. We will post registration numbers and EPDs at ndredangus.com prior to the sale and include this information on a supplement sheet.

Plan to join us on Friday at 2 p.m. CST at the Baymont Inn (formally the Seven Seas of Mandan) for our annual meeting, social at 5:30 p.m. and banquet at 6:30 p.m. The Red Select Sale starts Saturday at 12:00 p.m. CST sharp.

Hope to see you on sale day!
Todd Leland, NDRAA President

Greetings!

It has been a pleasure to be involved with the development of the 2015 N.D. Red Angus Association Red Select Sale. The members of this association are seriously committed to offer you cattle and genetics from the top of their programs. The programs presenting this offering host some of the top production and bull sales in the land so take advantage of them sharing the female base of their program with you.

Last year was the first year the NDRAA and N.D. Simmental Association presented both sales on the same day, and it was an impressive venue. There was an overflow crowd for both events; which supports the testament of how well the two breeds of cattle and breeders can work together!

There has never been a better time to be involved in the beef industry! The cow numbers are at an all-time low and we are continuing to see record prices for feeder calves. Commercial producers all over the country are searching for top-end genetics to use in their programs to take advantage of the times. As seedstock producers you will find the offering of this sale provides the source for those top-end bulls and females that will assist you in providing those genetics to your customers.

If you are looking for bred heifers to produce bulls for the commercial and seedstock industry, this offering has a lot of opportunities for you. The open heifers in the offering have some outstanding show heifer prospects for Junior programs – there will be something to fit your needs that will make tremendous cows as they develop.

Notice the comments in Todd's letter regarding the pending items in the catalog. We will make available any updates and additional info on the NDRAA website: ndredangus.com. There will also be video of many of the lots on consignor sites as well. The sale will be broadcast on dvauction.com so if you would like to participate online, that option is also available.

I would like to thank the NDRAA and the consignors for the opportunity to work with them on what is becoming a premier event in the region!

If you have any questions regarding the offering don't hesitate to give a call or send a note. I look forward to seeing many of you in Mandan on Dec. 11-12, 2015!

Sincerely,
Jeff Thomas

View the Auction Live!
Bid Online... you're ringside
right at your desk!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

Achieve it!

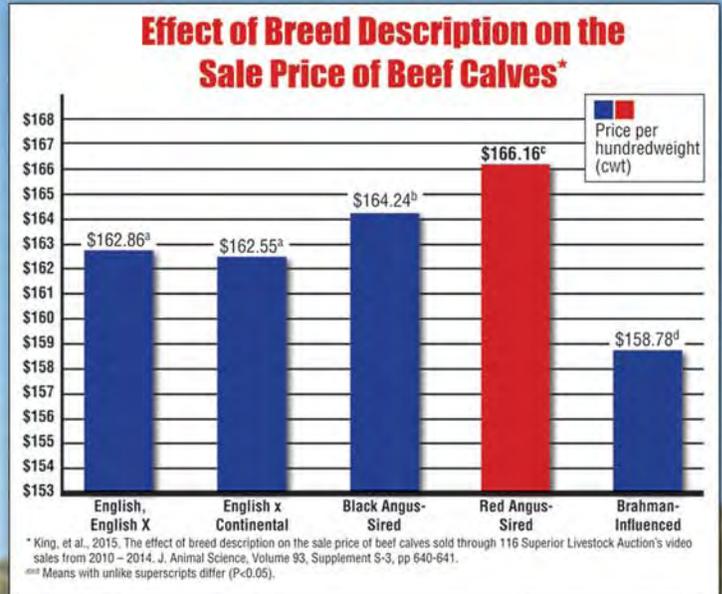

RETURN ON INVESTMENT

Red Angus genetics will improve your return on investment!

"For 10 to 15 years all the buyers ever talked about was black calves, and the black calves always brought more than everything else. Now I can honestly say that good Red Angus calves outsell the black calves and I know the Red Angus bred heifers will outsell black Angus bred heifers of equal quality every day."

– Jim Davis, Superior Livestock Auction

Independent research shows Red Angus-sired calves sold for a higher price than all other breed groups. Red Angus bulls make a positive difference in your breeding program's bottom line.

DK Miss Lookout B141 is a very eye-appealing, complete-made female. Her sire, Red Lazy MC Lokout 39Z, was the high-selling bull in 2013 in Lazy MC Angus Production Sale. This may be one of the first females to sell out of this sire. Don't pass her up!

A.I. bred to GMRA Stetson 2240 (#1525314) on 5/19/15. Pasture exposed to HLH Perfect Vision 0238 2020 (31520883) from 6/9/2015 to 7/21/15. Ultrasounded safe to A.I. date for a 2/25/16 calf.

DK Miss Packer B866 is a very broody, powerful type of heifer. She has a 107 WW index. Her WW EPD is in the top 4% of the breed and her YW EPD is in the top 3%. Her dam's MPPA is 101.4. Her mating is to the Accelerated Genetics' sire, Beckton Epic U368 KM, who is in the top 2% for CED and top 1% for Milk EPD. She will make a great addition to your herd.

A.I. bred to Beckton Epic U368 KM (#1258898) on 5/28/15. Pasture exposed to HLH Perfect Vision 0238 2020 (#1520883) from 6/9/2015 to 7/21/15. Ultrasounded safe to A.I. date for a 3/6/16 calf.

DK Miss Bronson B877 is a very stretchy, powerful heifer that has a 107 WW index with a dam's MPPA of 104.5. Her sire, NS Bronson X079, is siring many of our top-producing young cows and had the top-selling sire group at our production sale. Her mating to GMRA Peace-maker 1216 will be a valued return.

A.I. bred to GMRA Peacemaker 1216 (#1428993) on 5/17/15. Pasture exposed to HLH Perfect Vision 0238 2020 (#1520883) from 6/9/2015 to 7/21/15. Ultrasounded safe to A.I. Date for a 2/23/16 calf.

Miss BHR Catapult 46 and Miss BHR Bases Loaded 4177 were selected as our choice lot of bred heifers. Both heifers offer maternal pedigrees that have been proven in our herd for udders, disposition and soundness. Miss BHR Catapult 46 is a deep, soggy heifer with plenty of thickness while Miss BHR Bases Loaded is very stylish, deep-bodied, powerful female. These heifers are very hard to part with and we feel that either heifer will add value to your program.

PICK-OF-THE-HERD 2015-BORN HEIFER CALVES

Once again we will be offering the choice of our entire heifer calf crop. We are very excited about these females as we have added some new bloodlines and they have really excelled this year. Some of the choices for genetics include bloodlines from SSS Red Angus, Bieber Red Angus, RA Brown Ranch, Feddes Red Angus, Ludvigson Stock Farms and Barenthsen Red Angus. For over 60 years, Broken Heart Ranch has been committed to providing the best Red Angus genetics possible.

Buee Red Robin 516 is an excellent representation of our program. She has exceptional maternal traits and has an all-around even set of numbers with 10 of her traits being in the top 31% of the breed, not to mention her dam's MPPA is 104. She looks even better in person that she does on paper with her long, straight back and extra depth. She is sure to raise some outstanding herd sires and females that will improve your herd.

Here is a heifer that has everything going right and it was not an easy decision to let her go. She is long and deep and has the phenotype that you build your herd around. We bought her dam from Green Mountain Red Angus as their Lot 2 in the Big Sky Elite Female Sale. What an impact she is going to have on our herd with an MPPA of 105.7 and a picture-perfect udder. This is likely to be the only daughter to leave our herd. Buee Estonia's extra depth, dark, red hide and feminine features are just the icing on the cake.

Keep the Tags – Keep the Premiums!

Feeder Calf Certification Program

- Traceability to at least 50% Red Angus genetics
- Source verified to ranch of origin
- Group age

The FCCP is the beef industry's oldest USDA-verified genetic, source and age program, originating over two decades ago. It adds value to Red Angus customers' calves and grants access to branded product lines for Red Angus fed cattle. With no enrollment fee, the only cost to producers is the 99¢ panel tag.

Cattle enrolled and tagged with the yellow Red Angus tag gain exclusive eligibility for Tyson's Choice+ Grid and Greater Omaha's G.O. Red Grid.

Enrollment is easy – simply call and answer a few questions about your Red Angus-sired calves. Then tag them before they leave their ranch of origin.

Ranch Tested. Feedlot Trusted.

Selling three (3) frozen embryos with the guarantee of one pregnancy if the embryos are implanted by a certified technician.

Wow what a big-time mating here ... the resulting calves will be maternal siblings to the \$54,000 C-Bar Eldorado 114Z!

The dam, C-Bar Stony W914, is well on her way to proving that she is one of the best carcass and type combination females in the industry. She has five progeny ultrasound observations with a 122 IMF ratio average and 103 REA ratio average! Besides producing Eldorado, her progeny includes a Brown Alliance daughter that was the January heifer calf class winner at the 2015 National Red Angus Show. Considered one of the best Mulberry daughters in the breed, W914 stems for the ultra-powerful Stony cow family.

The sire, Andras New Direction R240, is making waves throughout the breed with his outstanding calf crop on the ground this summer. A total outcross for most, he stacks Angus legends Mytty In Focus, Traveler 004, Future Direction, Bar EXT Traveler and Boyd New Day.

Selling three (3) frozen embryos with the guarantee of one pregnancy if the embryos are im-planted by a certified technician.

Here is an opportunity that stacks some of the breed's most elite and newest genetics available today!

The dam, C-Bar Ms Stony A305, is a powerful first-calf daughter of ABS calving-ease and type leader, C-Bar Evolution 107Y, also the sire of the recently crowned Grand Champion Bull at the 2015 National Red Angus show at the NILE in Billings, MT. Stony A305 was a division champion at the '15 National Western Stock Show this past January, and her full sister, was just named the Cow-Calf Champion at the 2015 NAJRAE this summer in Grand Island, NE. She comes from the famed Stony W928 donor at C-Bar, a pow-erful Mulberry daughter that is a full sister to C-Bar Stony W914, the donor dam of C-Bar Eldorado 114Z, and also the dam of C-Bar's other embryo package selling.

The sire, PIE One Of A Kind 352, first caught the breed's attention when he posted an incredible yearling record of 66 BW, 90 BR, 893 AWW, 119 WR, 1,503 AYW, 117 YR, and 16.5 REA with a 107 ratio! He is sired by BUF CRK The Right Kind, and maternally stacks Packer, Feddes Big Sky, VGW Game Plan and Rambo 502. He sold in the '14 Pieper Red Angus Spring Bull sale for \$58,000 to Power Plus Genetics, OK, and Wildcat Ranch in TX, and his semen now sells for \$100 per unit!

If you are looking for a new donor cow, your search is over. This female has pedigree power and greatness in the blood. To start off with, she is a maternal sister to 5L Destination 893-6215. A bull that sure has made his mark in the Red Angus breed. Let's talk about production: 9142 has a WW-R of 3/121, IMF-R of 2/102, a REA-R of 2/106 and an MPPA of 114. Her dam has a MPPA of 104 her granddam has a MPPA of 109 and her great granddam has a MPPA of 103. I'd say that is power in the blood. Also check out her EPDs – you aren't going to find these numbers everywhere. She did calve on June 16 this year, however we breed her 30 days after calving and pulled her all the way up into April. She milks hard and does a tremendous job. This is truly a remarkable individual when you look at the whole picture. And how about what you are going to get next year? She is bred to the \$55,000 second-high seller at the recent Pieper Red Angus bull sale and a member of the Select Sires roster. Here is a chance to get in on the ground floor of one of the new up-and-coming herd bulls. What she is carrying could possibly be some of the most exciting genetics around.

A.I. bred on 7/17/15 to PIE Cinch 4126 (#1725110) due April 25. She sells safe to the A.I. date.

JND Erelite 50C's dam is a purebred Black Angus cow that originated from the Brylor Red Angus in Canada. She is out of the renowned SAV Net Worth 4200, who makes some awesome daughters. This cow has a super disposition and loves to be scratched. She is a female with a perfect udder. She is also the dam to Black Brylor Arson 23Y who is a son of the popular Red SSS Arson 85U. If you are looking to add some carcass to your cattle this could be the cow family to do that. She has had four calves to ratio 120 on their Marbling. She ranks in the top 2% of the breed for Marbling and top 6% of the breed for REA. It's not an accident that this heifer is good – her dam is a tremendous individual. She has the pedigree and class with a ton of rib shape and the look to be a future donor cow. If you are looking for a big-time heifer calf, make sure and check her out sale day.

This fancy heifer was the pick of our heifer crop! Her dam and sire are both sired by notable Canadian-bred sires from the reputable Canadian program, Lazy MC Angus. She had an actual WW of 778 lbs. on 10-1-15, out of a first-calf heifer. This heifer has the look of a show heifer and the genetics to produce!

GM Impress 434 is sired by the herd sire Andras Impressive who has done an excellent job at 3SCC ranch in Minnesota. She is very impressive and stamps a foot print when she walks. Her excellent feet and leg structure along with her cherry-red color gives her the phenotype cattle-men are looking for. She is extremely wide with tremendous depth and power. With her EPDs to back her along with her January 26 Feddes Big Sky calf – she's impressive to say the least!

A.I. bred to Feddes Big Sky R9 (#1025891) on 4/18/15. Pasture exposed to GM Sweet Mountain 446 (#1672533) from 6/1/15 to 8/15/15. Ultrasounded safe to A.I. date for 1/26/16 calf.

GM Chappie 448 is the type of heifer that will bring home a heavy calf in the fall. She has good depth and carries it well. She is backed by the Chappie family and is sired by a powerful bull, Jacobson Basin 1080. He added depth and growth to our herd. She is bred to 5L Independence 560-298Y who is gaining fast attention in the Red Angus world.

A.I. bred to 5L Independence 560-298Y (#1450309) on 5/3/15. Pasture exposed to GM Sweet Mountain 446 (#1672533) from 6/1/15 to 8/15/15. Ultrasounded safe to A.I. date for a 2/9/16 calf.

GM 505 is a stout, broody heifer that is actually a half sister to one we sold at last year's North Dakota Red Select Sale. GM Miss Balanced 505's fanciness comes from her sire LSF Balanced 2113Z and her dam DBAR Miss Bo U823, who has been a superior cow for us. Our Balanced-sired calves were at the top of our herd this year. 505 has the look of a show heifer and will bring length and broodiness to her new home.

GM 514 exerts exceptional power and thickness that carries down to her legs and feet, yet she still has the heifer look. We can't say enough about the performance and the power she has to offer. 514's actual weight on Oct. 27 was 778 lbs. With her excellent docility and powerful phenotype, she will move to the top of any cowherd. Don't forget her grandsire is the great Red Lazy MC Cowboy Cut 26U bull whose progeny have been selling very well. Check out her power on sale day!

Red Angus Guide to EPDs

HB HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

GM GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

CED Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

BW..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

WW Weaning Weight and **YW** Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

Milk Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

ME Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

HPG..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

CEM Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

STAY.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls with a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

MARB .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

YG Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

CW..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

REA Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

FAT Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

For more information on EPDs, visit redangus.org.

Ranch Tested. Rancher Trusted.

Here's a direct daughter of 5L Independence 560-298Y. These 298Y females that are in production are easy keeping with good dispositions and super udders. The 298Y bull calves have been the high-selling sire group at Jacobson Red Angus' sale two years running. The bottom side includes Sakic and Glacier Train 999. This heifer is bred to make a super cow with super carcass value. She is bred to one of the top sellers at Koester Red Angus' 2015 sale, Koester Unmistakebull 330, who ranks in the top 2% of the breed for HB, 3% GM, 12% CED, 7% BW, 10% WW, 8% YW, 2% Stay and 7% Marb - calving ease, performance and exceptional carcass merit.

Pasture exposed to Koester Unmistakebull 330 (#1670273) from 5/5/15 to 7/22/15. Ultrasound confirmed safe to Koester Unmistakebull 330 for a 3/20/16 calf.

These 0057 daughters are proving to be excellent mothers - great depth of body, lots of volume with great udders and super foot structure. This heifer is bred to 5L Firecracker 560-117A which is a flush mate to 5L Independence 560-298Y. Firecracker is making calves the same as 298Y - very balanced, complete cattle that are the kind that will keep you in the cattle business.

Pasture exposed to 5L Firecracker 560-117A (#1627862) from 5/5/15 to 7/22/15. Ultrasound confirmed safe to 5L Firecracker 560-117A for a 4/12/16 calf.

KKC Ms Rosie 431B is one of the most impressive looking females in our replacement heifers. The female is molded with perfect conformation and nicely balanced EPDs. 431B has that perfectly square hip that it takes to produce some of the great ones. Her dam, KKC Ms Rose 08, is one of our strongest cow families and is in our donor program. She is bred to WCR Power Eye 3229A, a Power Eye son out of the Soo Line Countess cow.

Pasture exposed to WCR Power Eye 3229A (#1645700) from 5/1/15 to 7/20/15.

KKC Sweet Dream C31 is a dark red heifer out of Red Lazy MC CC Detour 2W who is noted for producing great females. This ET heifer is out of Dynamic Sally 18K and is a 'dream. She stands on a flawless foundation with a great foot and extra volume. She is destined to be a front-pasture cow, successful show candidate and possible donor cow. Build a cowherd around her and never look back. Her dam's MPPA is 102.2

Wow! Here's a rare opportunity to own a Defender daughter. She was 71 lbs. at birth and grew to 655 lbs. at weaning. She is the spitting image of her granddam, 5L Black Adina 525-560 – but now she is red! A person could go on and on about the pedigree of this female, but here you have maternal, growth and carcass all wrapped up in one package. Her dam, Kuhns Bond Girl Z067, weighed 1,305 lbs. on Sept. 15 with a BCS of 6.

Glacier Chateau 744 is a sire that needs no introduction in the Red Angus breed. He's a sire that has stood the test of time and excelled with high accuracies. He not only has a balanced set of EPDs across the board, but also produces some of the most attractive, easy fleshing, functional females of any sire out there today. Semen has been very limited for several years, so this a rare opportunity to get your hands on some.

Here is a powerfully constructed, big-bodied, attractive female. B79 hails from the LMG MTX 3032 cow family. Her dam is a full sister to Gretzky who sold to ABS Global and the powerful W14 donor at Rust Mountain View Ranch. B79's dam, NSFR MTX Y47, is a great producer with a 102 MPPA. MTX B79 scanned an IMF ratio of 105. She is a great female from a stellar cow family. We are retaining the right to one flush with a minimum of six #1 embryos.

Ultrasound confirmed to Bieber Hard Drive Y120 (#1436718) for 3/8/16 bull calf.

What a show stopper! One of the deepest sided, most capacious females we have raised, yet feminine and stout. C12 is a standout. She has always been a favorite in her contemporary group. She comes from a very profitable cow family for us. Her dam has produced a top-selling heifer calf in Denver to Star G Ranch of Iowa and Kernen Red Angus of Minnesota, and our high-selling bull in 2011 to Robinette Farms of Missouri. If you are looking for a show heifer, we think she has all the right pieces to be very competitive in the ring as well as the pasture. We are retaining the right to one flush with the minimum of six #1 embryos.

The Seeger Red Sadie 334 cow was done a lot of things right in the breed with her cow power her great feet and udder structure! Her bulls and daughters just do nothing but make money. Red Sadie has daughters working in herds across the county and they are making their herds lots of money.

The first embryos are out of Brown JYJ Redemption Y1334, a bull that needs know introduction with high sellers all over the county!

The second set are from the \$52,000-high-seller at 5L Red Angus' sale last spring, 5L Topgun 560-65B! Calving ease with maternal – what an exciting bull!

Here's a daughter from a premier ET dam, our SHHM Annabelle 107J cow who has a 106 MPPA. These 200-series "S" cows were born in 2006 and are still producing at the top of the herd. Both of our bred heifers are from the best of our replacements; they will do a great job wherever they go. The sire of 27B is PIE Game Plan 0618, who is a solid producer of bulls and females. He is a very good individual with a great disposition. His dam was a donor in the Pieper herd with an MPPA of 111. Do not overlook the two bulls she was exposed to as they are very exciting bulls! View video online at www.olsonredpower.com

Exposed to Red Six Mile Buckshot 297B (CAN #1821216) from 5/1/15 to 6/8/15 and to Red Six Mile Spencer 111B (CAN #1819639) from 6/9/15 to 7/27/15. Ultrasounded confirmed for a 3/9/16 calf.

Dam 215S is one of our finest ET cows by PIE Avalance 381 and out of the dam of Dakota Copper 29K. She has raised some awesome individuals that have sold well at auction as well as some retained in our herd. Her 2015 heifer calf was also in the choice pen for this sale. We can talk all day long about PIE Game Plan offspring; they just rise to the top wherever they are. They are good bulls and good females. 50B speaks for herself. She is capacious while maintain her femininity and eye appeal. Her EPDs are powerful, she is a beauty and promises to be an out-standing cow. She will be one of the top females to sell anywhere this season, in our humble opinion. View video online at www.olsonredpower.com.

Exposed to Red Six Mile Buckshot 297B (CAN #1821216) 5/1/15 to 6/8/15 and to Red Six Mile Spencer 111B (CAN #1819639) from 6/9/15 to 7/27/15. Ultrasounded confirmed for a 3/19/16 calf.

21C is a very attractive young female who promises to be an asset wherever she goes. Dam 10Y is an excellent young cow with a great udder and disposition. Granddam 141T has an MPPA of 106 and is an outstanding producer and a direct daughter of Dakota Copper and our popular donor cow 2M. We sold two flushes on 2M in our 2007 cow sale for a total of \$8,000. She is a very prolific female and has had many offspring in our herd to date. Game Plan progeny have topped sales for us and our customers. Both the bulls and females are in high demand. His dam boasted a 111 MPPA when she was a donor at Pieper Red Angus in Nebraska. This pedigree is outstanding phenotypically and maternally. We will enter 21C at the 2016 National Western Stock Show in Denver. She sells open. View video online at www.olsonredpower.com

A very fancy daughter of the popular ORlgen sire, Mission Nexus, and a super productive direct daughter of Dakota Copper29K, the widely used ABS sire bred and raised at OHR. This girl has been a standout since birth and is holding her popularity at OHR. She has everything she needs to be a show girl and a great cow down the road. She's loaded with performance, eye appeal and a sweet disposition combined with EPDs that are solid and balanced. We believe this girl is outstanding in many ways. She will be entered at the National Western Stock Show in Denver for 2016. She sells open. View video online at www.olsonredpower.com

Prairie Pride Annie 521 is an attractive, powerful daughter of one of the hottest sires in the Red Angus breed. The Andras New Direction R240 bull has made a habit of siring stylish, easy-doing progeny wherever he has been used. The dam of 521 is 12 years old and is very sound with a perfect udder. In last year's North Dakota Red Select Sale, 521's maternal sister sold to Valnes Red Angus of Eden, S.D. 521 is a thick heifer with plenty of chest floor and flank while still maintaining a beautiful front third. Excellent prospect here.

When analyzing this female from head to tail, there just is nothing wrong with her. The length of body and spine is second to none. She has the real dark cherry red color and a slick front end that catches your eye every time you look at her. Super good disposition and I still have the dam, granddam, great granddam, great-great granddam to calve in 2016!

THE POWER OF 50K

Ranch Tested. Rancher Trusted.

Red Angus

www.RedAngus.org • (940) 387-3502

Red Angus' 50K test proves to be a game changer.

- Ensure your yearling heifer bulls are "calving-ease specialists."
- Confirm your cowherd-building bulls have optimal genes for maternal traits.
- Make certain your carcass bulls are superior grid producers.

Information gained from 50K genomic data and Total Herd Reporting data provides Red Angus stakeholders with EPDs of unsurpassed reliability.

Bull Selection – Simplified

HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

This calf is a granddaughter to the dam of our previous consignment. The Queen cow family has proven to have great performance and uniformity. These heifers will make tremendous, docile cows. You can't go wrong adding either heifer to your herd.

Achieve it!
PROFITABILITY.

- Growth from birth to finish
- Conversion and carcass in the feedyard
- Unsurpassed marketing programs and quality grids
- Maternal, efficient cowherd-building traits
- Improved heat tolerance and docile disposition
- Greater consistency in crossbreeding programs
- Industry's most-reliable EPDs presented in a multi-breed language

Ranch Tested. Rancher Trusted.

STRA Primrose 412 is a heifer that comes right from the top. She is a feminine, deep-bodied heifer. The Primrose cow family needs no introduction as it's making a huge impact at Bieber Red Angus and in many other herds. This heifer goes back to the great Basin Primrose 2043 cow. She is out of one of the hottest sires right now, LSF Takeover 9943W. She ranks in the top 3% for HB, 7% for GM, 1% CED, 3% for BW, 3% for STAY, 4% for MARB. The Primrose cow family doesn't miss and this one will be a top cow in anyone's herd. She sells bred to Bieber Hard Drive Y120. This calf will be a great one.

A.I. bred to Bieber Hard Drive Y120 (#1436718) confirmed for a 2/21/15 calf.

STRA Tina 414 is powerful, deep, long-bodied heifer. She has brood cow written all over her. She will surely wow you on sale day. She has been a standout since birth and hasn't missed a beat. Her dam was also a powerful cow with good feet and udder. She is out of the great Bieber H Hughes W109 bull that has left a huge mark on my herd. She is bred to our new herd-sire, Bieber Federalist B543, who we purchased this spring with Genex/CRI. We are really excited about the Federalist calves to come this spring and this one should be one of the good ones.

Bred to Bieber Federalist B543 (#1689751) for a 3/11/15 heifer calf.

STRA Miss Rambo 576 is a fancy, deep-bodied heifer. 576 is out of one of the best cows to ever walk this farm. BAR R Miss Rambo 71P boosts a 108.7 MPPA and is a performance machine. She combines two of the greatest herdsires in Red Angus history – Rambo 502 and Leachman Grand Canyon. She has raised a number of top-selling bull calves in our program. 71P, at age 11, still has great feet and udder. We have six other full sisters to her at home. Jeff Thomas said, "I don't care which one you pick 'cause they are all good." I picked the best one to put in this sale. Don't miss out on this great open heifer.

EURA Red Girl 256L-420 is a dark, cherry-red heifer that is as smooth made and complete in her conformation as you will find. Very correct in her structure with a terrific disposition. She presents a very balanced set of EPDs and high performance numbers. Her dam is our great 256L cow who totes a 105.9 MPPA on 10 progeny. She is bred to a new herdsire for our operation, Red Blair's Cutting Edge 555, and this mating will be very exciting. He is a strong calving-ease bull with tremendous phenotype to match!

Confirmed safe to Red Blair's Cutting Edge 555 (#1745843) for a 3/20/16 calf.

Here is a really nice broody heifer that should be an easy keeper. Her sire passes on easy fleshing calves and really good daughters that milk well. She has incredible EPDs and actual numbers, and her dam has a perfect udder. This heifer will make a great cow. With the Indeed and Smash bloodlines, you can't go wrong.

Miss Banker 448 is what our program strives to achieve when producing brood cows. Having several greats on her pedigree like Bank Statement, Mulberry 26P and Julian GGB571, it would be hard not to get something special. Her power and performance shows from one end to the other. She has tremendous length and capacity, all on a strong foot. The one thing about these Banker 142 daughters that we love the most is their disposition – it is second to none!

A.I. bred on 6/1/15 to Brown JYJ Redemption (#1441805). Pasture exposed to Crump Forever Red 324 (#1608779) until 7/20/15. Ultrasound confirmed to Brown JYJ Redemption for a 3/8/16 bull calf.

Miss Addy 480B is a stylish, dark, cherry-red heifer with a lot of eye appeal and performance to match. Her dam, EURA Miss Addison 839, has produced some of our top-selling bull calves, and this is the first heifer we have gotten from her. It was really difficult to let this one go! We know that her new owner will appreciate her disposition and performance, and what she will add to their program.

A.I. bred on 6/2/15 to Crump Forever Red 324 (#1608779) and pasture exposed to this bull until 7/20/15. Ultrasound confirmed for a 3/9/15 heifer calf.

Thank you!
