

KRAVIG RED ANGUS

Annual Production Sale

**MONDAY,
APRIL 11, 2016**

AT THE RANCH • KARVAL, CO

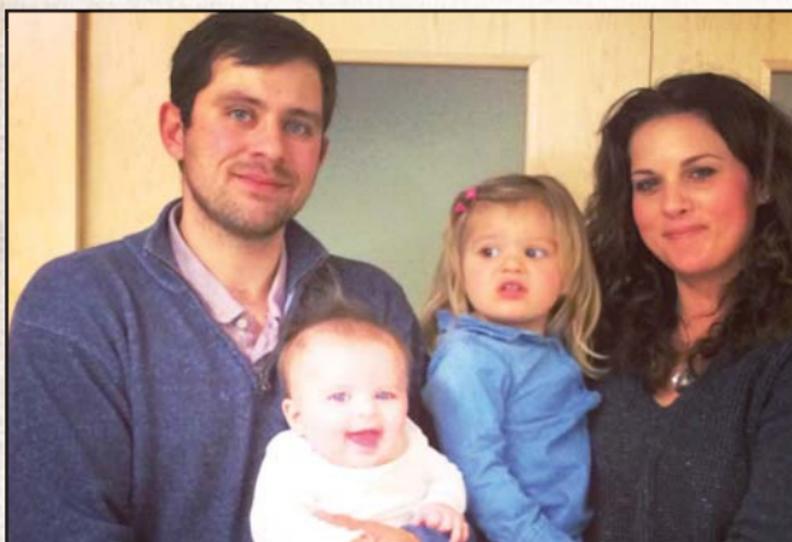

"Cattle Working For You!"

www.kravigredangus.com

Welcome

KRAVIG RED ANGUS

Aaron, Danielle, Kennadee and Hazel Kravig

Welcome to our 6th annual production sale. We appreciate your interest in our program and the continued support of our past customers.

Kravig Red Angus is a family-owned and operated cattle operation that has been raising Red Angus cattle in eastern Colorado for over 30 years. The day-to-day operations of our ranch are handled by myself, my wife Danielle, my father Dennis, and my mother Lisa. With two young children and several of us holding jobs off of the ranch it makes our weaning, calving and breeding seasons very busy. Thus, it is very important for us to place a great deal of emphasis on calving ease and quiet dispositions in order for everything to run smoothly.

The heart of our operation revolves around the mother cow. She must possess a sound udder, a quiet disposition, be moderate framed, easy fleshing, and have excellent structure with an emphasis on her feet and legs. Our cows are not pampered and, in order for them to stick around on our ranch, they must be able to “work” for a living with only minimal supplemental feeding. These traits are passed on from generation to generation creating the ideal cow who will stay on the land and generate a profit year after year.

Welcome

Greetings Cattlemen and Women,

Although the cattle markets in 2015 started out strong, they weakened considerably into the last quarter of the year. Still, most individuals involved in the cow-calf industry saw a profitable year. With the market outlook still a bit uncertain as to what it will look like this coming fall, it is now more important than ever to invest in good quality, EFFICIENT cattle, who will continue to turn a profit for you through the market fluctuations.

This year we weaned our calves in early October and started them on feed shortly after. The bulls were fed a TMR designed to achieve an average daily gain of 2.75 lbs/day. Along with free-choice hay, every day the bulls were turned out on grass allowing them to get out and stretch their legs. We believe that by developing our bulls in this manner they will remain sound, they will not be overconditioned, and they will be able to go out and start working for you.

All of the cattle in the sale offering have been culled for disposition, feet, legs and udder structure, and are backed by years of proven performance. All sale animals will be videotaped and will be able to be viewed on our website (kravigredangus.com) prior to the sale.

Whether you need a heifer bull, a new herdsire, or you are looking for functional, well-balanced females, I believe you will find exactly what you are looking for in this year's offering. I look forward to visiting with everyone on sale day!

God Bless, *Aaron Kravig*

Lisa & Dennis Kravig

Sale Information

KRAVIG RED ANGUS

Annual Production Sale

Monday, April 11, 2016

Viewing at 11 a.m. • Bidding closes at 1 p.m.

At the Ranch • Karval, CO

Directions: 1 mile west, 1 mile south of Karval, CO

Selling:

58 Red Angus Yearling Bulls • 6 Open Red Angus Heifers

SALE DAY PHONES:

Phone bids will be taken on the day of the sale. All phone bids must be made prior to 12:50 p.m.

719-243-9280 • 719-446-5355 • 719 892 0332

TERMS AND CONDITIONS

All cattle will start out at the listed base price. The silent auction will begin at 11:00 a.m. and close at 1:00 p.m. A final call will be made 10 minutes prior to the close of the bidding window, at this point we will announce what buyer number has the current bid on each lot and offer any other interested buyer the chance to bid on that animal. If no one else chooses to bid on that lot, the buyer who holds the current bid will be winner of the auction.

CATTLE VIEWING

Cattle will be available for viewing any time prior to the sale. The silent auction will begin at 11:00 a.m. and close at 1:00 p.m.

FEEDING

All cattle not being delivered will be kept free of charge until May 1. Any cattle that are picked up after May 1 are subject to a feed cost.

DELIVERY

Free delivery to central points within 120 miles. Delivery assistance beyond 120 miles can be arranged at least cost.

BREEDING GUARANTEE

All of the bulls will pass a breeding soundness exam prior to leaving our ranch. Heifers will be guaranteed open and in shape to breed.

CATTLE CARE

When the cattle are sold the buyer may leave their livestock at the ranch until delivery at the buyer's risk. We will take care of the cattle to the best of our ability, but the cattle are the buyers responsibility.

LUNCH:

A complementary lunch will be served from 11 a.m. to 1 p.m. on sale day.

Sale Information

CATALOG DESIGN: Cow Camp Promotions

RED ANGUS CATEGORIES

1A –

Purebred 100% Red Angus with no disqualifying characteristics.

1B –

87.5% to and including less than 100% Red Angus with no qualifying characteristics.

Category II –

Animals with equal to or greater than 87% up to including 100% Red Angus blood content having one or more disqualifying features. In this offering it is white front navels, black hides, or scurs.

Category III –

Animals that are 50-87% Red Angus. In this offering all animals being sold are purebred Red Angus cattle, however some sale lots only have a registered pedigree on the top side. (Dams to these animals in our sale are guaranteed out of purebred Red Angus cows, however they lack registration papers with the Red Angus Association.)

HD 50K GLOBAL REPORT

This year we did the Zoetis 50K Global DNA report on all of the bulls listed in the sale. The 50K data will be the only information listed on every commercial, or category C, bull in the catalog. To help you better understand this information we have provided you with the following information from Zoetis which explains the data.

Molecular Value Prediction (MVP) – Predicted genomic breeding values for animals, based on the sum of the effects of the associated markers, expressed in units of measure for the trait. Similar to Expected Progeny Differences (EPDs), MVPs rank animals for genetic merit and are expressed as deviations in performance from a set base-point for each trait. One-half of the difference in genomic breeding values between animals is transmitted to offspring.

Percentile Rankings (%) – Percent ranks are based on the animal's MVP for each trait as compared to the overall population of Black and Red Angus animals in the Pfizer global database. Rank values indicate the 'top' position of the animal in the population, with lower values generally indicating higher and more favorable genetic merit for most traits. Traits of exception may include milking ability, yearling and mature height, mature cow weight and fat thickness, where lower rank values indicate genetic merit for higher levels of milk and larger size, and higher associated feed requirements, and potentially less maternal adaptability (fleshing ability), respectively.

The Zoetis logo is displayed in a bold, orange, lowercase sans-serif font. The letter 'z' is stylized with a thick, rounded bottom stroke that curves under the 'o'. A small 'TM' trademark symbol is located to the right of the 's'.

Our lead-off bull is sired by Over At Ease 510A, a powerfully made son of the great C-Bar Contour bull. Like his father, KRV Easy 5030 is a complete powerhouse with an exceptional EPD profile. 5030 is a calving-ease bull who is packed with performance and is backed by an extremely efficient cow with a picture-perfect udder. She goes back to the great Beckton Julian B571. 5030 is an excellent herdsire prospect who will add performance and docility into any herd.

This is a bull that is hard to part with! 5049 is sired by Over At Ease 510A, and is out a dam sired by PCC Colorado Hobo. With his unique pedigree and an impressive EPD profile, this bull as herdsire written all over him. 5049 is a moderate-framed bull with a huge leg and big top. If you'd like to build a cowherd that is moderate and thick with enough middle to consume ample low-quality forage, this is the bull to buy.

Lot 4 is yet another calving-ease bull with an EPD profile that is sure to keep any cattleman in business. He is sired by HLH Packer 5190 2187, a son of the popular Messmer Packer. His sire is proving to be the easiest keeping, heaviest muscled bull we have ever owned. We have kept every heifer out of his sire and they are turning into exceptionally easy-fleshing, gentle heifers with beautiful udders. This bull, though not very photogenic (this can be blamed on the less-than-impressive photographer – myself) is as deep and wide as any bull in the offering.

72%	62%	6%	20%	73%	40%	88%	83%	20%

This is a commercial bull. He is in fact a purebred Red Angus, but his dam was never registered. He is a grandson of the famous HXC Conquest 4405P and is out of an absolute exceptional dam. As a matter of fact, I would like to have an entire herd of cows modeled after his dam. This is my favorite bull in the sale. He has been a standout since the day he was born. He is as wide as a house, is moderate in his frame, and has more top, middle, and leg than any bull in the offering. If are in need of a new herd bull, 5020 would be an asset to any program.

This is a consignment bull sired by HXC Conquest 4405P. Here is another purebred commercial bull who is an absolute tank. He is a big-scrotaled, tight-sheathed bull with power and performance! If you came to the sale to buy two bulls, Lots 7 and 8 would be one of the stoutest sets of bulls offered anywhere this year.

Another consignment bull with a lot of rib and a powerful rear quarter. He is sired by Brown Better Answer Z7257 and is out of a cow that was purchased in our production sale in 2014. This bull is an excellent choice for heifers but has performance and power that would be well utilized on cows as well. He has a white ear, but don't let that deter you. He is an extremely growthy and long-bodied bull who moves like a cat.

Open Heifers

As always, it's hard to part with any of our registered heifers and this set is no exception! Our loss will be your gain.

These heifers are functional, fertile and feminine females out of some of our best cow lines. The dams to these heifers are moderate-framed cows with well-balanced, sound udders and great dispositions. Whether you want to get started in the registered business or you just want to increase your herd size, this is a great place to start!
