PUBLICATION REPRESENTATIVES:

Donnie Leddy, *Cattle Business Weekly* (605) 695-0113
Colt Keffer, *Charolais Journal* (765) 376-8784
Rod Geppert, *American Angus Assn.* (605) 295-3673
Lynn Kongsli, Kongsli & Severance Auction Service
..... (701) 537-5594

PRE-SALE VIEWING:

Bulls may be viewed at the ranch until Tuesday, Jan. 19.

VOLUME PURCHASE DISCOUNT:

A volume discount is \$250. It will be given on the fifth bull
purchased by one family ranching operation, and a \$50
discount for every bull purchased thereafter on sale day.

ADDITIONAL PERFORMANCE DATA:

Adjusted 365-day weights and ratios, average daily gain
and scrotal measurements will be available on sale day.
Check our website, www.severanceranch.com, after Jan. 8
for additional performance information.

TERMS AND CONDITIONS:

The terms of the sale are cash or check payable to the
clerks following the sale, unless satisfactory credit ar-
rangements have been made with Jan Severance prior to
the sale.

BREEDING GUARANTEE:

Bulls are guaranteed breeders through the first breeding
season. If a breeding problem occurs that is confirmed by
a veterinarian, the buyer must return the bull to the seller
in good health and have a minimum of at least 1# ADG
since purchase for guarantee to apply for an exchange for
an equal-quality bull, or for credit towards the purchase
in the next sale. In no case will the seller be responsible
for more than the purchase price. Severance Diamond
Charolais will make every effort to make sure that you,
our customer, is fully satisfied with the bull(s). This is not
a life insurance policy. We will not replace a dead animal
if it dies for any reason. Full mortality insurance can be
purchased sale day.

HEALTH:

Bulls have been treated with Bova Shield Gold, One Shot,
7-Way and Dectomax. Health certificates will be provided
for each sale lot.

TRUCKING:

Severance Diamond Charolais will assist in making
economical trucking arrangements. We can take the bulls
back home if it is more convenient to pick them up at the
ranch, or bring your own trailer and receive a \$25-per-bull
discount.

FINANCING:

You have the option of paying 50% of purchase price on
the sale day and the balance when you pick up your bulls,
interest free. Insurance or a waiver of liability will be avail-
able at the settlement desk. We will be feeding the bulls at
your risk.

CATALOG:

Catalog designed by Cow Camp Promotions.
Printed by Livestock Direct.

WELCOME

Dear Cattle Friends,

As I look back on the year of 2015, it was really a good year! The one thing that comes into my mind over and over, and maybe it was just more of the life lessons I seem to learn on this journey, is that this year I have learned to “expect the unexpected.” For me it all started at our bull sale last January 24, it was really a warm day, the warmest we have ever had for a bull sale day. We have had many sale days where it didn’t get above zero all day. This one was different, and by 10 a.m. it was starting to rain and it rained most of the afternoon, like a summer time rain, with a temperature approaching 50 degrees. Things went good and everyone hurried to get home afterwards as we all worried about ice. I said to myself that was not something I ever expected!

The next lesson came to me in a phone call about the end of May. Son Rod (#4) called me from Washington state, up near the Canadian border where he worked for many years as a U.S. Border Patrol agent. He told me he thought he would retire from this job, but now hated his work as they (current administration) were letting 97% of the illegals go after he had risked his life to catch them. He said that he and his wife wanted to come home and farm and ranch. This was a huge “expect the unexpected.” Rod and Carrie arrived home late July after selling their new home in Washington and are now living in a mobile home on the ranch. We are glad to have the much-needed help.

Later, in June 2015, I was driving down the road and my phone rings. It was Ian Glassman from Missouri, and he tells me that he has an offer on his ranch he can’t walk away from. So that means he has decided to disperse his herd of purebred Charolais cows, including the ones he bought from us in the fall of 2013. He tells me the sale will happen on Labor Day weekend. My heart had a hollow spot in it from when those cows left our ranch. I sat out on a hill in the pasture one day thinking about this totally unexpected call. I thought how the good Lord was putting things together for us. I thought here is another very big “expect the unexpected” lesson in life. I knew I had to make a trip to Missouri to buy some of our cows back!

Sally and I took off in our semi, pulling a 53’ pot borrowed from a good friend. Eleven hundred miles later we were in southern Missouri. Long story short, we bought a number of great pairs, loaded the truck in 90-degree heat and 90% humidity, and headed north. We made it up the road an hour, and the truck dash lit up with error codes. Turbo sensor was out, exhaust filter was plugging, and the truck was going to shut us down on the road soon. We made it to a truck stop and got on the phone calling friends. Everyone we called was great and wanted to help. We knew we had to get these cattle moving somewhere by the next morning as it was dark out and still almost 90 degrees. A good friend from Minnesota drove all night to get to us by daylight, and hooked his truck to the loaded pot. Then we sent our truck to the dealership on the tow hook, and headed north! We drove all day Sunday and backed up to our unloading chute at 3:30 a.m. Monday morning. The cattle were wore out and glad to get their feet back on the ground and their noses in some water. We were glad to be home!

The other thing I never would have expected is a beautiful long fall like we had this past year. It was great! We got a lot of work done and even built new four-wire barb fence on December 9, 2015. A good “expect the unexpected” for sure.

One more unexpected turn of events is the cattle market. When I talked to Rod on the phone in May, we had good cattle and grain markets in comparison to where we are today. I won’t preach to you that we are going to get healed up price wise in a year. But I do know from 40 years of breeding cattle, that you want to turn out the best bulls you can next spring. We will be bringing an outstanding set of bulls to town – they are very uniform with lots of performance. Breed and build for the future. We are ... it might turn out better than we expected!

Thanks for being our friends,

Jan, Sally Jo, Randy & Rod Severance

81	792	NA				2.9	0.5	31	62	0	2.9	15	1.0

Lot 1 is an outstanding herd sire prospect. This bull displays an eye appealing smoothness and thickness that I have found difficult to find. His Grand Sire BHD Zeus X3041 has been a standout performer the DeBruycker herd in Montana. In 2015 DeBruyckers sold 76, X3041 sons in their sale to average \$6,401 on the 76 sons. And again in 2014 the X3041 sons were the largest selling group. In the AICA sire summary, X3041 is currently a trait leader for weaning and yearling weight. The dam of this lot is once again back home at our ranch to stay, after a 23 month stay in Missouri. She is an attractive cow with an excellent udder. Lot 1's maternal grand dam was a top selling cow in our 2010 female sale selling to Sandmeier Charolais. The bull calf that she was carrying sold for \$10,000 in the Sandmeier production sale the next year. The 766 cow also produced a top selling bull for us in our 2010 sale going to R Lazy B Charolais. That bull is currently listed as a weaning and yearling weight trait leader. I see this lot 1 bull as an excellent choice for the LT Ledger females. Ledger is the most widely used Charolais bull in history and justly so, but now we must find an outcross bull that will maintain and keep the qualities that we have gained. Lot 1 is an excellent answer! Selling 1/2 interest and full possession.

Lot 2 is an own son of the great M6 Grid Maker 104, who still sires some of the top calves in the breed each year. Dam of this bull is an attractive, perfect uddered cow as was her dam Assertion 603. This is a true calving ease bull with natural thickness one has come to expect from the popular Grid Makers.

The sire of this exciting lot was the high selling bull in the Randy Schmidt Charolais production sale in 2014. The dam of this lot was one of the best Thundering Wind daughters we had, and I tried to buy her back, but she sold for \$10,000 in the Utopia Genetics dispersion sale. I am lucky to have two of her daughters at our ranch. I think you will like the massive power this bull has in him, he will produce top gaining well-muscled calves!

This Ledger son is the real deal! Low birth weight, top end performance, eye appeal and natural thickness! Dam is an excellent cow, the kind one would want their herd sire to be out of. Last year we looked long and hard for Ledger sons to use in our herd, and we purchased two of them. Lot 5 would fit right in with those two bulls for sure!

Lot 14 is a really good bull that will catch your eye for sure. His length of body, strong top line, and overall herd sire presence is outstanding! His sire is a great outcross and comes from a long line of top cows. Take a look at this top performing bull from a great cow that we are happy to have back at the ranch!

Sired by the milk trait leader Oakdale Duke 9003P who is deceased with a very limited supply of semen left. This is an excellent bull with lots of length of body and an overall eye appealing smoothness to him. He was born out of a first calf heifer with minimal assistance. I score the first calf heifers in my calving book on disposition and udder quality, and lot 18's mother was at the top of the class. I believe one could add a lot to the herd with this exciting bull!

Lot 19 is a powerful performance bull with lots of length. His dam's family is one of the strongest performers for generations. His sire is currently a MCE trait leader in the Charolais sire summary. We have used his sire for years as a calving ease, high growth bull on heifers with good results. Those traits help bring in a bigger check and makes any producer or banker happy!

My birthday is Feb. 10, the same day this bull was born. I always like getting bull calves on my birthday and when this bull arrived and I saw how small he was, I thought oh no... maybe he's too early. But nope, his mom licked him off and he was up sucking in no time by himself. He's been growing forward every day since, my kind of bull!

Lot 34 is a No Wind from a good, older cow. We could tell she wasn't feeling the best, so we sold her at weaning time, but she left us with some great daughters.

USING EPDS FOR SELECTION

Cattle Evaluations use the term Expected Progeny Differences (EPD) to express genetic transmitting ability of a sire for the various traits listed. An EPD is a prediction of how future progeny of a sire are expected to perform in a particular trait relative to other sires in the analysis. The key word is "difference." The EPD itself does not imply "good" or "bad" performance. But rather, the EPD gives a prediction of the average difference to expect in the performance of a sire's progeny relative to other sires in the same analysis.

The EPD for a given trait on each animal in the analysis is compared to every other animal in the analysis. The EPD is reported as a plus or minus value in the unit which the trait is measured.

Calving Ease Direct (CE) is expressed as a difference in percentage of unassisted births in first calf heifers. A higher value indicates greater calving ease. It predicts the average difference in unassisted births with which a sire's calves will be born when bred to first-calf heifers.

Birth Weight EPD (BW) The expected difference in average birth weight (pounds) of progeny. Birth weight reflects prenatal growth.

Weaning Weight EPD (WW) The expected difference in average weaning weight of calves. The evaluation reflects the genetic influence on pre-weaning growth rate.

Yearling Weight EPD (YW) The expected difference in average yearling weight of progeny. The evaluation reflects genetic influence on both pre-weaning and post-weaning growth rate.

Maternal Milk EPD (M) The genetic ability of a sire's or dam's daughters to express in pounds of weaning weight in her calves due to her maternal ability through mothering instinct and milk.

Calving Ease Maternal (MCE) is expressed as a difference in percentage of unassisted births in first calf daughters. A higher value indicates greater calving ease. It predicts the average difference in unassisted births with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Total Maternal EPD (MTL) A value to predict the weaning weight performance of calves from a animal's daughters due to genetics for growth and maternal ability. Total Maternal is calculated by adding 1/2 the WWT EPD to the Maternal Milk EPD.

Scrotal Circumference EPD (SC) The expected difference in scrotal circumference (expressed in centimeters) of a bull's or dam's male offspring at yearling compared to progeny of all other animals evaluated. Research has also indicated a relationship between increased SC EPD and decreased age at puberty for daughters.

Lot 35 is an early fall bull from a top donor cow in the Utopia Genetics donor pen. She was an own daughter of M6 Gridmaker. The sire of this bull is the high selling bull from the LT 2013 bull sale. Sundance 2251 is also the number one weaning bull on the trait leader list and number 9 on the yearling weight trait leader list. So I expect good things from this powerful young bull. I believe he will sire calves with a lot of thickness and depth of body, those kind of cattle make money!

Lot 36 was an April born bull so I didn't let him or lot 37 come to town last year. I didn't feel they were ready to work nor was it in the best interest of everyone. But now he has had a chance to grow and mature and is ready for heavy service. All of these aged bulls are virgins and all have been recently semen tested. The sire of this bull, Cattle Business 598, puts a lot of grow into his calves.

In last year's bull sale our top selling bull was a Connealy Capitalist son out of the 348 cow family. This lot 46 is a Capitalist out of the 009 family who was sired by Leachman Right Time. The 009 was a super thick cow and picture perfect. She was a donor cow for us and Ellingson Angus until she died. I love this bull's profile, his performance, and I will just let the picture tell you the rest. He is a true Herd Sire Prospect! Selling 2/3 interest and full possession.

We liked the Connealy Capitalist calves so well last year that we went back this spring and AI'd a lot of heifers to him again for 2016 calves. This bull should be easy calving, bring lots of growth to his calves, and the Madame Prides are well known as super cows at Schaff Angus Valley and Ellingson Angus.

Lot 48 was the only bull calf that we got out of the highly proven Connealy Consensus 7229 bull, the rest of the AI's came as heifers. The 2523 cow raised one of the top selling bulls in last year's sale going to Steve Lenling. The Consensus cattle are thick made, easy fleshing and do very well. The female side of the lot is super thick as are most all of our Sitz Alliance daughters.

Here is a collector's item for sure! Dam and sire are both deceased, and yet both highly proven genetic power houses. Alliance 6595 sires the best of both worlds. His daughters in our herd are rock solid, thick made, trouble free cows. The 113 cow was purchased from Frey Angus. She has left many top "13 females in our herd. Full siblings to lot 49 have worked as herd sires in Doug Schmidt's Angus herd, our herd, plus several other top herds. This is the last of the 6595 x 113 Embryo's. Last chance to own one, don't miss out.

Living Life

Life is not a race - but indeed a journey.
Be honest. Work hard. Be choosy.
Say "Thank you," "I love you," and "Great job!" to someone each day.
Go to church, take time for prayer. The Lord giveth and the Lord taketh.
Let your handshake mean more than pen and paper.
Love your life and what you've been given. It is not accidental. Search for your purpose and do it as best you can.
Dreaming does matter. It allows you to become that which you aspire to be.
Laugh often.
Appreciate little things in life and enjoy them.
Some of the best things really are free.
Do not worry - less wrinkles are more becoming.
Forgive. It frees the soul.
Take time for yourself - plan for longevity.
Recognize the special people you've been blessed to know.
Live for today - enjoy the moment.

This sire of the next six lots was our \$17,500 pick of the Bruns Angus Sale in 2014. He was one of the top selling lots and justly so! His dam is a donor at Bruns Angus. We really appreciate this bull's overall smooth thick look. Lot 58 has excellent weaning performance. Connealy Thunder and Alliance 6595 are the true cowmakers!

The sire Mohnen Substance 1183 was the top-selling of three ET brothers that all made Mohnen's Championship Denver Pen. Vern Frey helped us get this bull bought also. 1183's dam is also the dam of Mohnen Brushpopper 295 who is at Accelerated Genetics. The dam of this lot is a granddaughter of our donor cow 348, who along with her daughters, have all been outstanding producers. The dam of lot 68 produced our high selling bull in 2014, going to Ellingson Angus. You will like everything about this bull, from performance to depth of body, plus he has a great disposition which we have found comes standard with the 348 cow family.

These eight 2-year-old bulls are very uniform, very high quality, all virgin bulls and semen tested and ready to go to work! This outstanding son of Connealy Capitalist never made it to town for last year's sale as he had a small pimple on his neck, we drained it, treated him and held him over to make a phenomenal 2 year old. Was probably a hay needle and he healed 100%. We calve Capitalist out of heifers with great results. Dam of this lot brings great female power stemming from Aberdeen and Final Answer.
